

**BV TWENTSCHE
KABELFABRIEK**

REACH Position Statement

BV Twentsche Kabelfabriek (TKF) declares that its products are compliant to the European REACH regulation (EC) 1907/2006.

As a downstream user of raw materials TKF produces "articles" and "preparations" that do not require registration according to the REACH regulation. Our products, however, may contain raw materials that should be REACH classified. Therefore, TKF has notified all its suppliers that the "substances" or "substances in preparations" supplied to TKF must be preregistered before 1 December 2008. Furthermore, the suppliers have been asked to confirm their REACH compliance to TKF before this date.

When releasing new raw materials, compounds or products, TKF will ensure REACH compliance through statements from suppliers and/or Material Safety Data Sheets. Non-registered materials will not be purchased or used in our products according to the schedule of the REACH regulation.
